## “WAS IT AMAZON?”

What website did you order that package on?  
Was it Amazon?  
Of course you did - that place is the paragon,  
Welcome to our office - put your hi-vis jacket on...

They follow me around my way - they Check on me, my drop in rates,  
I walk about for miles a day - I wreck my feet they often ache,  
Always home very late, I can barely even Concentrate,  
Should focus on me, I've got no energy to operate

I wish we only worked from 9 until 5,  
And the amount they pay? We only try to survive,  
Every day speeds past I don't think time's on our side.  
Because this Amazon has got us in the 'Prime' of our lives.

We slave away into a grave it's what we do just to pay dues,  
While the big shots hide away in the HQ,  
We can't hit the brakes - they think this is a breakthrough?  
But the break room is the one place they can't break you
